Ministerio de Turismo
REPÚBLICA DOMINICANA

E-Ticket

- As of **April 1, 2021**, the *Electronic Ticket of Entry and Exit of the Dominican Republic*, strictly digital, will be required.
- This unique portal of the **General Immigration Office**, will be the way to register and fill out the information required by the **General Immigration Office**, General Directorate of Customs and the Ministry of Public Health, of all passengers entering or leaving the Dominican Republic, whether Dominican or foreign.
- This digital form will replace all physical forms required to date.
- The implementation of this project represents an important step forward in the modernization of our customs and information systems,
- It is a clear commitment to modernization, focus on service, efficiency and the safety of people entering or leaving the country.

Important Facts

- The electronic ticket is only available for persons entering or leaving the Dominican Republic through air transport. Persons using maritime transportation continue to use the physical forms.
- In case the person has not completed the electronic ticket before entering/leaving the Dominican Republic, it is **NOT** an impediment to travel. It is **NOT** an impediment to make the trip, it can be completed even at the airport (free Wi-Fi network is available at the airports to access the E-ticket), the important thing is that the form has been completed before arriving at immigration.
- It is recommended that the time to fill out the ticket for entry into the country is a maximum of 72 hours in advance (so that the declaration of symptoms and signs of the Public Health form has the correct information).

Important Facts

- The form must be filled out when entering and leaving the country.
- It is important to enter the passport number correctly, if it is typed with an error, at the time of passing through immigration, the electronic ticket will not appear and you will have to fill it out again.
- In case you make a mistake when filling out the form, and you realize it after it has been sent, you must fill it out again. The last form submitted will be taken into account.
- The QR code stores the customs information of the registrant and accompanying persons. In case of leaving the country the QR code will not be required, because the customs declaration is not required at the moment of leaving the Dominican Republic.

The screenshot displays the E-Ticket interface for the Dominican Republic. At the top left is the logo for 'E-TICKET REPUBLICA DOMINICANA'. At the top right is a language dropdown menu set to 'ENGLISH'. The main content area is titled 'REPUBLICA DOMINICANA' and 'BOARDING AND LANDING TICKET FROM THE DOMINICAN REPUBLIC'. On the left, there is a table with the following information:

NAMES: PLINIO MERCEDES MERCEDES
PASSPORT NUMBER: XXXXXXXX
COUNTRY OF NATIONALITY: ALB
DATE OF ISSUE: 01/06/2021
MIGRATION: ENTRADA

On the right side of the ticket, there is a large QR code. At the bottom right of the ticket area, there are two buttons: 'LOGOUT' and 'GENERATE PDF'.

It is not required to save the QR code, since it only stores the customs information (of the registrant and accompanying persons), and since no customs declaration is made for the exit, it will not be necessary to present the code at the time of leaving the country.
